OUR **CLIENT** **SERVER** SOLUTIONS

Time and attendance systems provide many benefits to businesses of all sizes, giving the employer full control of their workforce. Often, it is difficult to comply with labor regulations and keep adequate records of employees' attendance. AMG Employee Attendance software will help control labor costs by reducing time theft, preventing buddy punching, transcription and human errors. Manual processes are eliminated as well as the additional staff needed to maintain them.

Our AMG Software Solution enables payroll reports to be used by 3rd party payroll systems. Not only this saves time, but also it helps payroll professionals or business managers avoid any potential calculation errors. Listed to the left are a few of our export options. If we don't have your payroll provider already on our list, we can definitely customize it for you.
