Having flexibility and accessibility in mind, AMG Employee Management brings cloud based solutions to satisfy all your business needs. In today's world, we understand how important it is to have access to your employee management account conveniently from any location. AMG Cloud Based Solutions allow you to setup unlimited headquarters, divisions, groups, departments and pay policies. It is easy to use, manage and modify. Additionally, we allow you to customize your subscription by adding modules that will benefit your business.

Whether it is a small sized business or a large corporation, AMG Client Server Solutions will benefit you by efficiently managing your workforce and improving productivity levels. Our software will extend your company's flexibility and propose time tracking alternatives. With no monthly commitments or internet access issues, supervisors and administrators will be able to manage their workforce effortlessly. You can easily customize your software package by adding modules that will simplify daily employee management tasks and cut down payroll costs.
