Elionic Quick Guide

How to add admins to the clock?

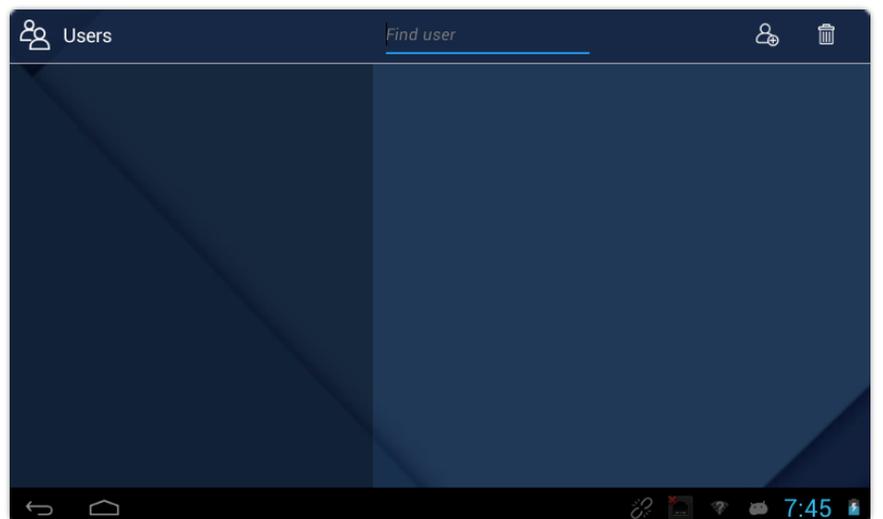

Step 1: Select the three dotted button at the top of the screen to access the menu

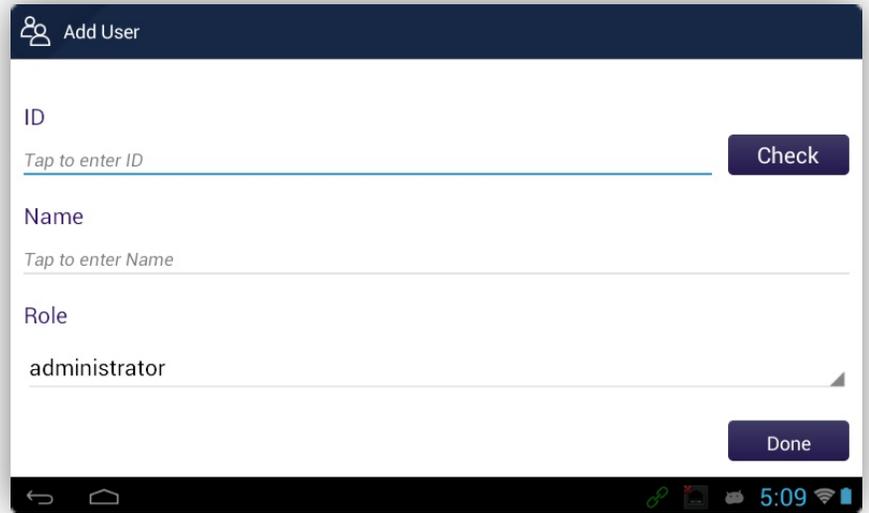

Step 2: Select the Users button

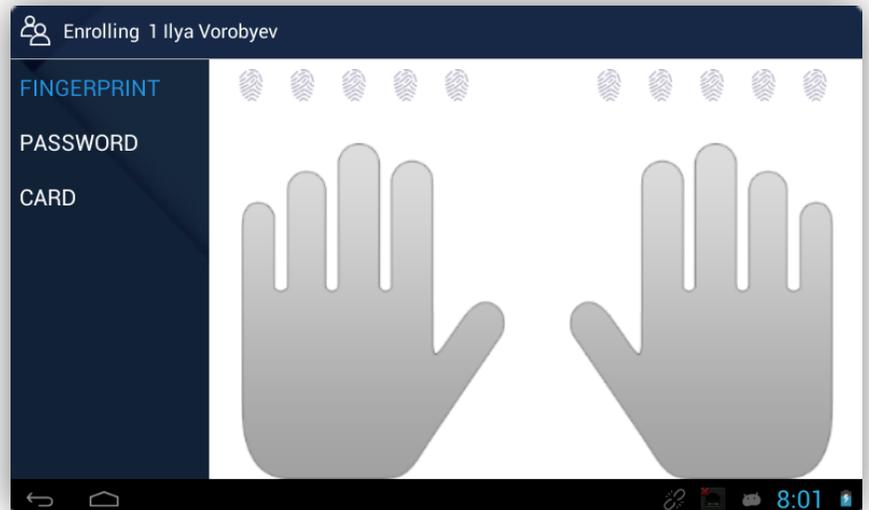

Step 3: Select the add users button in the upper right corner

Step 4: Enter the requested information, then identify the users "Role" as an administrator.

Step 5: In the following screen, you can add 3 different methods of verification: Fingerprint, Password, and/or Proximity Card

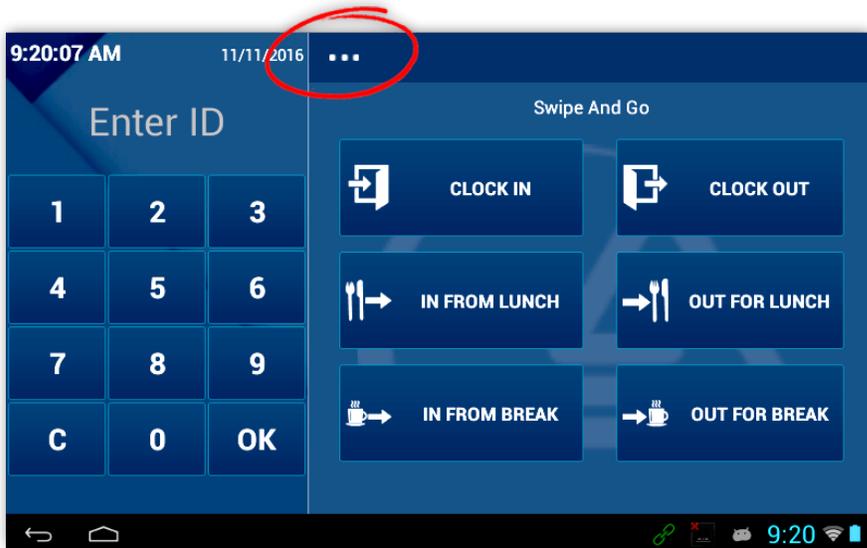

Elionic Quick Guide

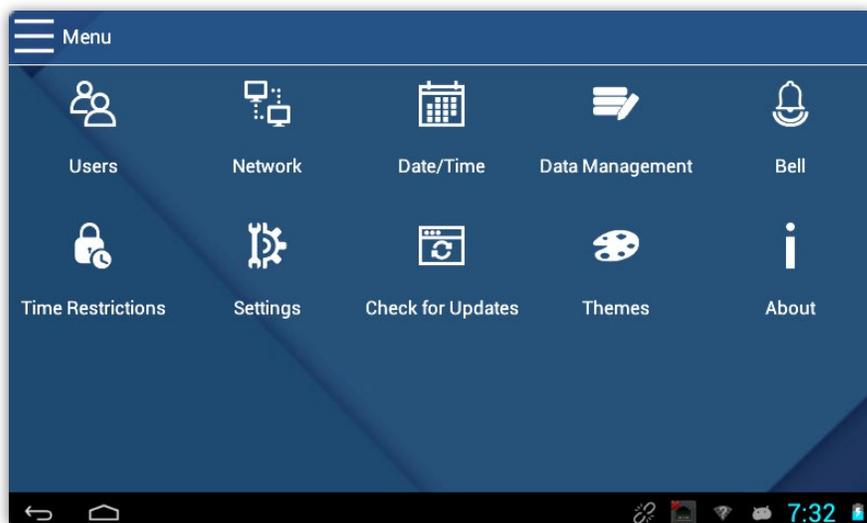

Connecting Elionic to the Internet

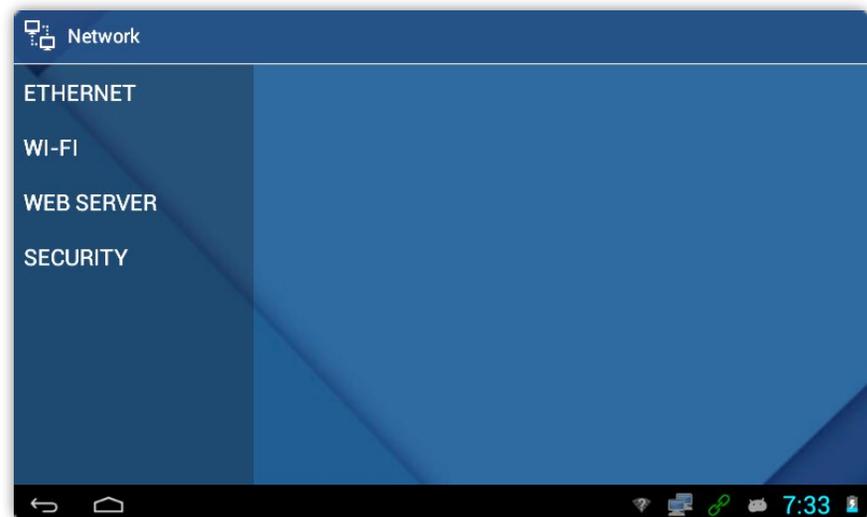

Step 1: Go into the main menu by selecting the 3 dotted button towards the top of the screen.

Step 2: Select the Button Labeled with Network

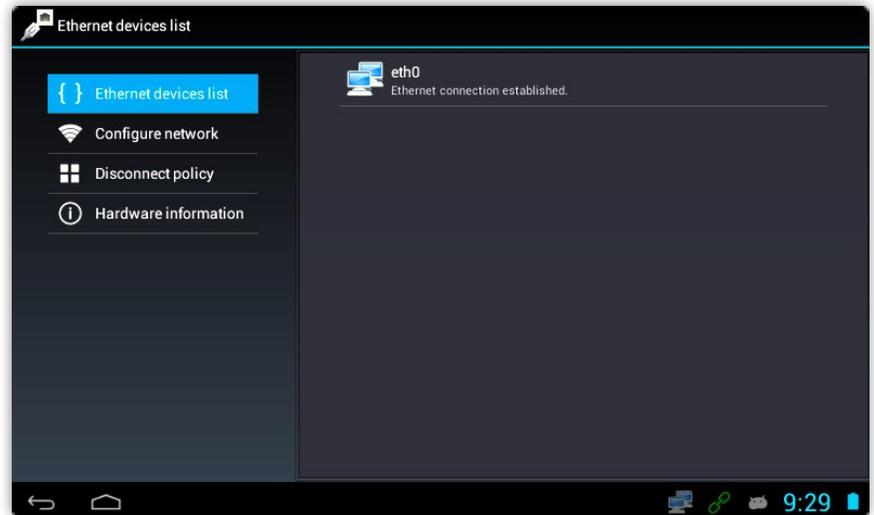

Step 3: You have two methods of connecting, Ethernet and Wi-Fi.

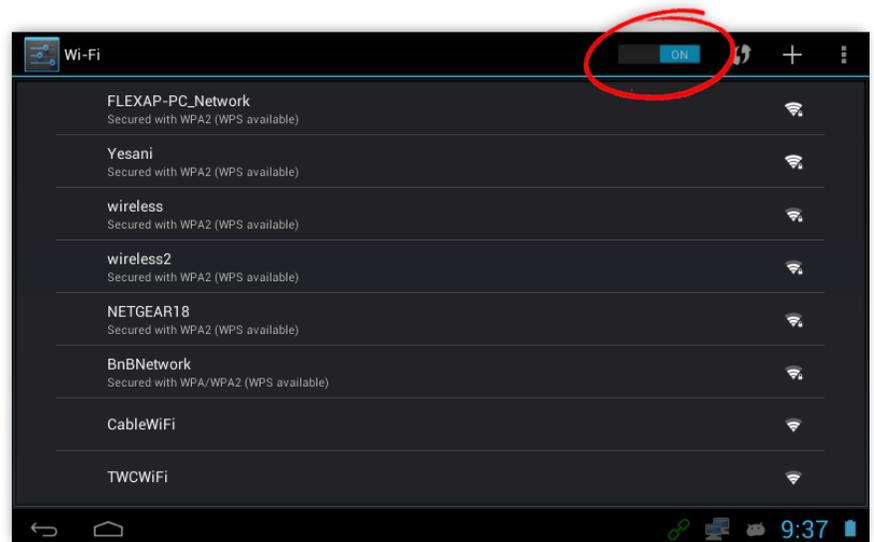

Select Wi-Fi if you have a stable wireless connection and if you are using a wired connection select the Ethernet option. For the Wi-Fi setup jump to Step 5.

Step 4: After selecting the Ethernet option you should plug in your Ethernet cable into the back of the device.

If your connections are correct it should display "Ethernet connection established." under the eth0 tab.

Step 5: Select the WiFi option from the Network Menu than turn it on with the switch towards the top of the screen.

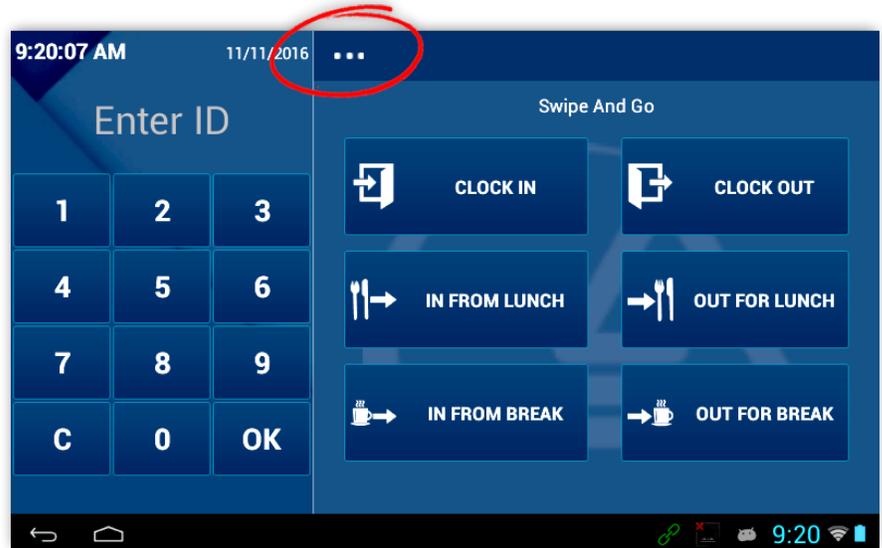

After choosing your wireless network from the list and/or entering in your Wi-Fi password, your device is set for web server connection.

How to add employees to the clock?

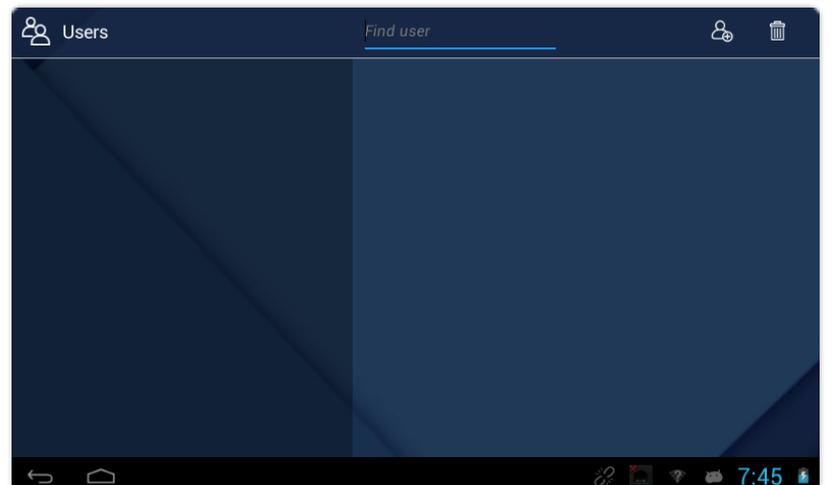

Step 1: Select the three dotted button at the top of the screen to access the menu

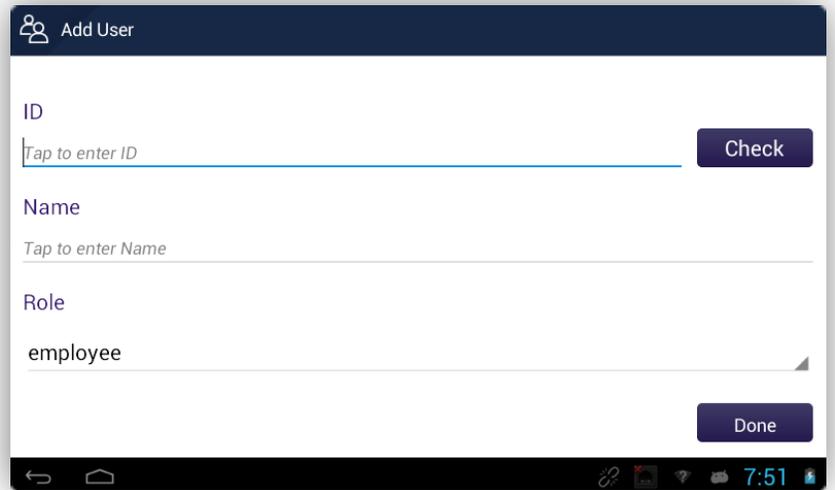

Step 2: Select the Users button

Step 3: Select the add users button in the upper right corner

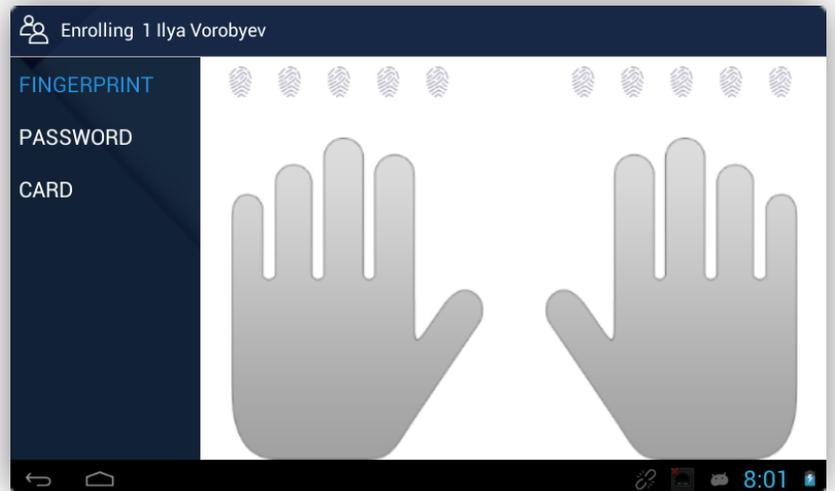

Step 4: Enter the requested information, then identify the users "Role" as an employee.

The screenshot shows a mobile application interface for adding a user. The title bar at the top is dark blue with a person icon and the text "Add User". Below the title bar, there are three input fields: "ID" with a placeholder "Tap to enter ID" and a "Check" button to its right; "Name" with a placeholder "Tap to enter Name"; and "Role" with a dropdown menu currently showing "employee". At the bottom right, there is a "Done" button. The Android navigation bar is visible at the very bottom, showing the time as 7:51.

Step 5: In the following screen, you can add 3 different methods of verification: Fingerprint, Password, and/or Proximity Card

The screenshot shows a mobile application interface for enrolling a user. The title bar at the top is dark blue with a person icon and the text "Enrolling 1 Ilya Vorobyev". On the left side, there is a dark blue sidebar menu with three options: "FINGERPRINT" (highlighted in blue), "PASSWORD", and "CARD". The main area of the screen shows two large, light gray hand icons for fingerprint enrollment. Above these hand icons, there are two rows of small fingerprint icons, each row containing five icons. The Android navigation bar is visible at the very bottom, showing the time as 8:01.
