

Elionic-200

Self-Service Employee Kiosk Making Time and Attendance Easier

The Elionic biometric kiosk is transforming the time and attendance industry. The fingerprint reader Android-based touch-screen tablet, is prepared for use right out of the box, Wi-Fi enabled, and web ready.

The Elionic connects with AMGtime's top-of-the-line time and attendance system, which is available on client-server or cloud service. With the Elionic's simple design, employees can effortlessly use the kiosk timeclock to access their timecards, check schedules, and request time off directly from the device.

With the advanced features of the Elionic, employee management becomes more efficient, saving office administrators both time and money.

Features

- Eliminates buddy punching
- Photo capture with every clock in and out
- Off-Schedule Meal Reporting keeping employees compliant with lunch/break rules
- Reporting of failed transactions and transactions occurring in restricted time slots
- Bell System and Access Control Feature
- Verification methods: fingerprint, proximity card, pin/password

Technical Specification

Fingerprint Capacity	6,000
User Capacity	10,000
Transaction Capacity	200,000
Fingerprint	SILKID Sensor
RAM	1G Byte
ROM	8 GB
CPU	Quadcore Cortex-A53 1.2 GHz
System	Android 6.0.1
Communication	TCP/IP, WiFi, Webserver, USB Host & Client, SD Card Slot
Power	12V DC 3A, Built-in Battery
Operating Temperature	32°F - 113°F (0°C – 45°C)
Operating Humidity	20% - 80%
Dimensions	222 x 1235x 51.4 mm (LxHxD)
Net Weight	620g
Card Options	125KHz EM, 13.56 MHz Mifare, Omikey 5127
